To Whom It May Concern:

RE: Letter of Recommendation

Dear Sir/Madam,

With this letter I would like to certify that The [International Organization for Migration \(IOM\) -Pretoria](#) have requested the services of Apex Global since 2006 to current.

During this time we have used Apex Global to supply numerous relief items to various parts in the region of Southern Africa namely Zimbabwe, Mozambique, DRC, Zambia and Malawi.

We have found Apex Global to be reliable, resourceful and able to supply a wide range of goods at economical prices and acceptable quality standards. Apex Global have also been found to be able to deliver on time as indicated on their Proforma Invoices. Some of the products supplied have varied though they include blankets, tents, pots, pans and kitchenware, clothing, office furniture, soap, jerry cans, buckets, fencing wire, building materials and numerous other items.

Last year Apex Global supplied a Mobile Ambulance into Zimbabwe which is still in use in rural areas. They are also experienced in making up comprehensive relief kits for displaced persons and this year supplied several truck loads to remote parts of Mozambique. They seem to have a good network of manufacturing sources to call on when needed. In short they are reliable and resourceful and we can recommend them with confidence.

Yours truly,

Donavan Naidoo
Procurement Logistics Officer
